ENTREPRENEURIAL MILLENNIUM

MARCH 15TH & 16TH 2024

ABOUT ECLUB

Entrepreneurs Club is a student-led organisation from PSG College of Technology, exclusively dedicated to fostering the spirit of entrepreneurship and the entrepreneurial way of thinking. It offers a venue for student networking and sharing in a habitat that will nurture entrepreneurship and innovation while assisting students in cultivating and developing their own ideas, either in the context of starting their own business or working for an organization with an entrepreneurial culture. It helps to develop, instill, and stimulate entrepreneurship within the student population to spread a wider perspective, a route, and a vision among our peers and for our own selves to be sure enough to believe our potential to alter the world.

ABOUT ENEXT

The Entrepreneurs Club at PSG College of Technology hosts its flagship event, the Annual E-Summit known as ENEXT, which stands as the crown jewel of the club's initiatives. This summit is designed with the primary objective of instilling and nurturing the spirit of entrepreneurship among the student community. ENEXT achieves this goal through a dynamic blend of diverse activities, engaging workshops, and immersive experiences, all meticulously crafted to inspire and motivate participants.

One of the distinguishing features of ENEXT is its multifaceted approach, offering students a unique and holistic perspective on entrepreneurship. The event goes beyond traditional lectures and theoretical discussions, incorporating exciting events that challenge participants to apply their skills in real-world scenarios. These hands-on experiences help bridge the gap between theoretical knowledge and practical application, fostering a deeper understanding of the entrepreneurial journey.

ENEXT
